

## WALL WIZARD PRODUCT INFORMATION:

### Wall Wizard:

The Wall Wizard is a very robust wall mounting system made of Nylon and fibreglass, this combination is much stronger than just Nylon, and has a high-grade aluminium-adjusting shaft and inserts.

With the wall mounting system (Wall Wizard) you can attach or hang articles on a brick wall securely in seconds, no need to drill holes for screws, it is very easy to attach to a brick wall and leave them there for a short time or a long time with no damage to the wall (Great for rented properties.)

### Wall Wizard Planter Clip:

The Wall Wizard planter clip is made of stainless steel, and clips onto the Wall Wizard very easily and makes it easy to hang half round plastic planters, half round wire planters, and plastic troughs. All plastic planters half round and troughs must have keyhole slots cut out for hanging the planters. (See instruction sheet)

### Wall Wizard adjusting spanner:

The Wall Wizard adjusting spanner is for fastening the Wall Wizard to a brick wall.

The spanner is made of steel and zinc coated with a built-in cement mortar rake, which is for scraping out, and cleaning up rough cement mortar.
